Online Proposal System

EXAMPLES

Interactive & Expandable

The Online Proposal System allows you to take advantage of interactive content such as embedded video. It's also entirely expandable, giving you limitless options for navigation and sub-navigation. Provide professional looking proposals in an impressive and interactive format.

System Management

Once logged in to the system, the advanced administrative page allows you to find proposals easily, track prospect activity, copy, edit, or delete proposals. All of the tools necessary to effectively manage your content online.

Tired of the time it takes to generate customized proposals? EDsuite has developed the most efficient and easy to use professional online proposal system for Economic Developers on the industry. With EDsuite's latest 2.0 release, the Online Proposal System has been entirely re-developed to take advantage of the Internet's most recent advancements. With EDsuite, you don't have to be a web programmer, or even a computer lover to take advantage of this technology for the benefit of your community and organization. By utilizing your relevant website content already in existence, we've turned a laborious process into something that literally takes minutes. By easily compiling existing data on the fly, inserting custom data with our ultra easy editor, your prospect will be both astonished at the delivery time and impressed with the professional packaging in a customized website just for them.

Each proposal you create is crafted exactly to the needs of the prospect. EDsuite allows you to quickly search through your library of data, select relevant items, and with one click generate a polished online proposal that will rival even the most advanced website. With flexible navigation, you can build necessary amounts of pages and sub pages in an intuitive menu structure. EDsuite provides a professional branded version of your proposal template using your logo and color scheme with every account purchased.
