

The City of Shasta Lake is helping residents and local businesses save money and energy by offering rebates for the installation of energy efficient equipment.

1. Energy Star Appliances

Energy Star appliances can help cut your use and save you money. Look for the Energy Star logo whenever you are shopping. Rebates from \$60 to \$200 for refrigerators, dishwashers, clothes washers and room air conditioners.

2. Energy Efficient AC and Evaporative Cooler

The City of Shasta Lake currently offers rebates for central air conditioner and evaporative cooler models that meet the minimum efficiency requirements. Air Conditioning: Rebates from \$100 to \$600 per ton. Evaporative Coolers: Rebates from \$400 to \$800 per 1,000 Sq. ft.*

3. Existing AC or Heat Pump Tune-Up

A \$500 rebate per household is available every three years.*

4. Duct Sealing - City of Shasta Lake

provides a rebate of \$500 per system.*

5. Energy Efficient Heat Pumps

Rebates from \$500 to \$700 per ton.*

HOME IMPROVEMENTS

6. Residential Pool Pump

Qualifying energy Star pool pumps provide a rebate of \$250 per Variable Speed Pump.*

7. Energy Efficient Residential Lighting

From \$5 per bulb to \$20 per bulb string.

8. Energy Efficient Water Heater

\$200 rebates - electric water heaters only.*

9. Residential Weatherization

If you use electric heat or central air conditioning and install one of these upgrades, you can qualify for rebates from 0.10 cents per sq. ft. for cool roof to \$4 per sq. ft. for replacement windows.* See qualification requirements.

10. Commercial Lighting

Rebates are available for up to 60% of the cost for installation of new high efficient lighting.

For rebate applications and more detailed information and restrictions on these and other Energy Efficiency programs, stop by the City of Shasta Lake's office, or call our Energy Efficiency hotline at

888-883-9879

*Rebates not to exceed 75% of the cost.
