

City of Shasta Lake - Construction Standards Index

Standard Page Standard

000 - Abbreviations and Definitions

090.00 Abbreviations and Definitions

100 - Streets

100.00 Materials and References
110.10 Basic Street Design Standards
110.20 Basic Street Design Standards
111.10 Typical Street Cross Section Layout
111.20 Minimum Structural Sections
112.10 Street Standard - Local Street (Existing Infill)
112.20 Street Standard - Minor Collector
112.30 Street Standard - Major Collector
112.40 Street Standard - Minor Arterial
112.50 Street Standard - Principal Arterial
112.60 Street Standard - Principal Arterial
112.70 Street Standard - Expressway
113.10 Typical Cul-de-Sac Design
113.20 Typical Intersection Elbow
114.00 Sight Triangle
120.10 Bus Turnout Detail
120.20 Bus Turnout Detail (Curved Street)
125.10 Standard Alley Entrance
125.20 Alley and Valley Gutter Details
126.00 Cross Gutter and Spandrel
127.00 HMA Curb Return
131.10 Sidewalk Standard
131.20 Separated Sidewalk Alternative
131.30 Meandering Sidewalk
134.00 Concrete Curb
135.10 8" Concrete Curb and Gutter
135.20 6" Concrete Curb and Gutter
135.30 5" Concrete Curb and Gutter (vertical transition for roll curb)
135.40 Concrete Roll Curb and Gutter
141.10 Curb Ramp Location
141.20 Curb Ramp Location (Type A)
141.30 Curb Ramp Location (Type B)
141.40 Curb Ramp Location (Type C)
147.01 Driveway Standards and Criteria
147.02 Driveway Standards and Criteria
147.10 Standard Driveway Locations
148.10 Standard Residential Driveway
148.20 Standard Commercial and Industrial Driveway
148.30 Modified Commercial and Industrial Driveway
149.10 Residential Driveway Culvert
149.20 Residential Driveway Dip
152.10 Quick Change Signpost Receiver Installation
152.20 Street Name Sign Installation
152.30 Regulatory and Warning Sign Installation

154.10	Internally Illuminated Street Name Sign Intersection Layout
154.20	Internally Illuminated Street Name Sign Detail
180.00	Speed Table
183.00	Timber Barricade
184.00	Survey Monument Box Assembly
190.00	Under Sidewalk Drain

200 - Storm Drain

200.01	Storm Drain Materials and Construction Criteria
200.02	Storm Drain General Design Criteria
200.03	Storm Drain General Design Criteria
200.04	Storm Drain Pipeline, Inlet, and Detention Basin Design Criteria
200.05	Storm Drain Pipeline Acceptance Testing
200.06	Storm Drain Manhole Acceptance Testing
202.00	Storm Drain Basin Medallion
260.10	Type 1 Storm Drain Manhole
260.20	Type 2 Storm Drain Manhole
264.10	24" Storm Drain Manhole Frame and Lid
264.20	24" Storm Drain Manhole Frame and Lid - Bolt Down
270.00	Outlet Headwall Structure
271.00	Inlet Headwall Structure
272.00	Flared End Outlet - 15" to 24"

300 - Sanitary Sewer

300.01	Sanitary Sewer Materials and Construction Criteria
300.02	Sanitary Sewer Design Criteria
300.03	Sanitary Sewer Pipeline Acceptance Testing
300.04	Sanitary Sewer Manhole Acceptance Testing
301.00	Typical Sanitary Sewer Lateral
302.00	Sanitary Sewer Two Way Cleanout
350.10	Sanitary Sewer Main Line Cleanout
350.20	Sanitary Sewer Rodhole Traffic Box
360.10	Type 1 4' Diameter Sanitary Sewer Manhole
360.20	Type 2 4' Diameter Sanitary Sewer Manhole
361.00	6' Diameter Sanitary Sewer Manhole
362.00	Sanitary Sewer Inside Drop Assembly
363.00	Sanitary Sewer Manhole Base Details
364.10	24" Sanitary Sewer Manhole Frame and Lid
364.20	24" Sanitary Sewer Manhole Frame and Lid - Bolt Down
365.00	Sanitary Sewer Above Ground Manhole Installation
380.01	Sand and Oil Interceptors (SOI) - Applicability and Sizing
380.02	Sand and Oil Interceptors (SOI) - Design Requirements
380.03	Oil and Grease Interceptors (OGI) - Applicability and Sizing
380.04	Oil and Grease Interceptors (OGI) - Design Requirements
380.10	Sand and Oil (SOI) / Oil and Grease (OGI) Interceptor
380.20	Sampling Station

400 - Water

- 400.01 Water Materials and Design / Construction Criteria
- 400.02 Water Materials and Design / Construction Criteria
- 400.03 Water Materials and Design / Construction Criteria
- 400.04 Water Materials and Design / Construction Criteria
- 400.05 Water Materials and Design / Construction Criteria
- 400.10 Contractor Qualifications for Potable Water Projects
- 400.20 Water Main Acceptance - Disinfection and Bacteriological Testing
- 400.30 Water Main Acceptance - Hydrostatic Pressure Testing
- 400.40 Operation of Main Line Valves and Water Main Shutdown Procedures
- 400.50 Main Line Hot Taps
- 400.60 Abandoning Water Mains and Services
- 401.10 Water Service Connection - Single Service (1" and 1 1/2")
- 401.20 Water Service Connection - Single Service (2")
- 401.30 Water Service Connection - Meter Detail - 3" and Larger
- 401.40 Water Service Connection - Manifold Service
- 401.50 Non-Residential Irrigation Sub-Meter
- 402.10 Thrust Restraint Lengths - PVC C900 Pipe
- 402.20 Thrust Restraint Lengths - Ductile Iron Pipe
- 403.00 Thrust Blocks and Anchor Details
- 404.00 Water Valve Detail
- 405.00 Temporary Fire Hydrant Connection
- 421.00 Fire Hydrant Installation
- 422.10 Case 1 Fire Service (Typical)
- 422.20 Case 2 Fire service (Typical)
- 422.30 Case 3 Fire service (Typical)
- 422.40 Fire Service - Non-Typical (1", 1 1/2", and 2")
- 422.50 Residential Fire Services
- 422.60 Reduced Pressure Principle (RPP) Backflow Assembly (Internal - Alternate Location)
- 431.10 Reduced Pressure Principle (RPP) Backflow Assembly - 3/4" through 2"
- 431.20 Reduced Pressure Principle (RPP) Backflow Assembly - 4" and Larger
- 431.30 Backflow Assembly - "N" Pattern, 3" through 10"
- 432.10 Backflow Assembly Enclosure - 3/4" through 2"
- 432.20 Backflow Assembly Enclosure - 3/4" through 2"
- 432.30 Backflow Assembly Enclosure - 3" and Larger
- 432.40 Backflow Assembly Enclosure - "N" Pattern, 3" through 10"
- 441.00 Air Gap Separation Detail
- 450.00 Blowoff Installation
- 451.10 Combination Air / Vacuum Valve (CAAV) - Typical Service Line
- 451.20 Combination Air / Vacuum Valve (CAAV) - Typical Installation Detail

500 - Electric - Contact City of Shasta Lake Electric Utility

600 - Miscellaneous

601.00	Density Reference Guideline
608.00	Locating Trace Wire and Warning Tape Installation
609.00	Bedding Sand
610.10	Wet Utility Trench
610.20	Structure Backfill
610.30	Concrete Encasement, Concrete Cap, and Slurry Cement Backfill
612.10	Traffic Box Concrete Collar and Grade Adjustment
612.20	Manhole Concrete Collar and Grade Adjustment
620.00	Joint Utility Trench
622.00	Typical Utility Locations
623.00	Typical Utility Service Box Locations
624.10	Joint Trench Location - Meandering Sidewalk
624.20	Joint Trench Location - Non-Meandering Sidewalk
624.30	Joint Trench Turnout
630.10	Access Control Gate
630.20	Emergency Access Knockdown Gate
635.00	Paved Pathways and Trails
650.00	Postal Pad - NDCBU Cluster Box
660.10	Separation Criteria for Potable and Non-Potable Pipelines
660.20	Separation Criteria for Potable and Non-Potable Pipelines
670.00	Bollard Installation

700 - Grading and Landscaping

700.01	Grading Design Standards
700.02	Grading Design Standards
700.03	Grading Design Standards
701.01	Declaration Regarding Embankments or Unclassified Fills
702.01	Landscape Construction Criteria
702.02	Landscape Construction Criteria
710.00	Landscape Irrigation Trenching Details
711.10	Sprinkler Detail (Type 1)
711.20	Sprinkler Detail (Type 2)
711.30	Sprinkler Detail (Type 3)
712.00	Quick Coupler Valve
713.00	Irrigation Control Valve
714.00	Irrigation Ball Valve
715.00	Irrigation Control Enclosure
716.00	Interior Irrigation Controller
720.00	Concrete Landscape Divider Curb
721.00	Tree Root Barrier
722.10	Tree and Shrub Planting
722.20	Tree Staking
725.00	Slope Planting
726.00	Sod Planting

800 - Stormwater Management

- 800.01 Water Pollution Control Criteria
- 800.02 Water Pollution Control Criteria
- 800.03 Water Pollution Control Criteria
- 800.04 Water Pollution Control Criteria
- 800.05 Water Pollution Control Criteria
- 800.06 Water Pollution Control Criteria
- 810.01 Erosion Control Criteria
- 810.02 Erosion Control Criteria
- 810.03 Erosion Control Criteria
